

AWARD[®] packages - for all your procurement requirements

The AWARD[®] Suite is an innovative web-based solution designed specifically to support strategic, complex and high-risk procurements. AWARD[®] is flexible and scalable, and will deliver benefit to your projects, programmes and organisations, whatever their shape or size.

The Suite is packaged into solutions (Pro, Plus and Premium) to meet your requirements; from our renowned core evaluation capability, through to the addition of best practice modules to support key elements of your procurement and a fully managed service, underpinned by our expert thought-leadership and proven methodologies.

The packages are aligned to our Plan – Prepare – Execute stages of the procurement process:

Each package offers access to different modules and levels of support and training. Whatever your requirement, whether it be for a single project deployment or across an organisation for ongoing use; standalone or working alongside your eSourcing system, we have packaged our AWARD[®] solutions to suit you. They are designed to support procurement teams whether it's just the complex evaluation capability you need, or the fully managed service with access to our methodologies, expert modules and thought-leadership.

What's included with Pro, Plus and Premium?

PACKAGE	Plan	Prepare	Execute	Expert Assist	Support and Expert Services		
					Training & TA	Workshops	Consultancy
AWARD Pro			✔		✔		
AWARD Plus	✔	✔	✔	✔	✔	✔	
AWARD Premium	✔	✔	✔	✔	✔	✔	✔

About our Pro, Plus and Premium packages:

AWARD® Pro is our baseline, entry-level solution, comprising our core evaluation capability.

- Often used alongside eSourcing systems to complement tendering and basic evaluation functions
- Access Helpdesk support via an email ticketing system
- Technical Analyst support for initial set up, configuration and templates
- Accreditation and end-user training courses for self-supported use.

AWARD® Plus includes one or more of our modules, and delivers more capability, such as weighting, criteria development and the selection of your value for money approach.

- Additive to the Pro account
- Training is provided with the initial purchase of the modules, enabling standalone use of their powerful capabilities
- Evaluation is supported via our enhanced ExpertAssist Helpdesk
- Accreditation and end-user training courses for self-supported use.

AWARD® Premium is designed to offer more support for your project, and is often delivered as a managed service. Service requirements are scoped via Account Management teams in conjunction with a services lead.

- Support is via an assigned consulting lead with access to our ExpertAssist Helpdesk service
- Delivered primarily by experts with Technical Analysts in a supportive, product focused role
- A package of briefings and workshops from the education element of the services offered as part of the managed service.

Key benefits of AWARD®:

- Specifically designed to support the collaborative and multi-dimensional nature of complex evaluation
- Helps you avoid the lengthy delays and significant costs associated with traditional approaches
- Provides the ability to test and analyse before going out to market
- Records all competition data throughout the procurement process to help you maintain a robust, automatic audit trail
- Enables you to confidently select the best supplier and protect yourself against legal challenges.

Our solutions support the diverse needs and approaches of our clients including:
